

DBA TRAINING #1

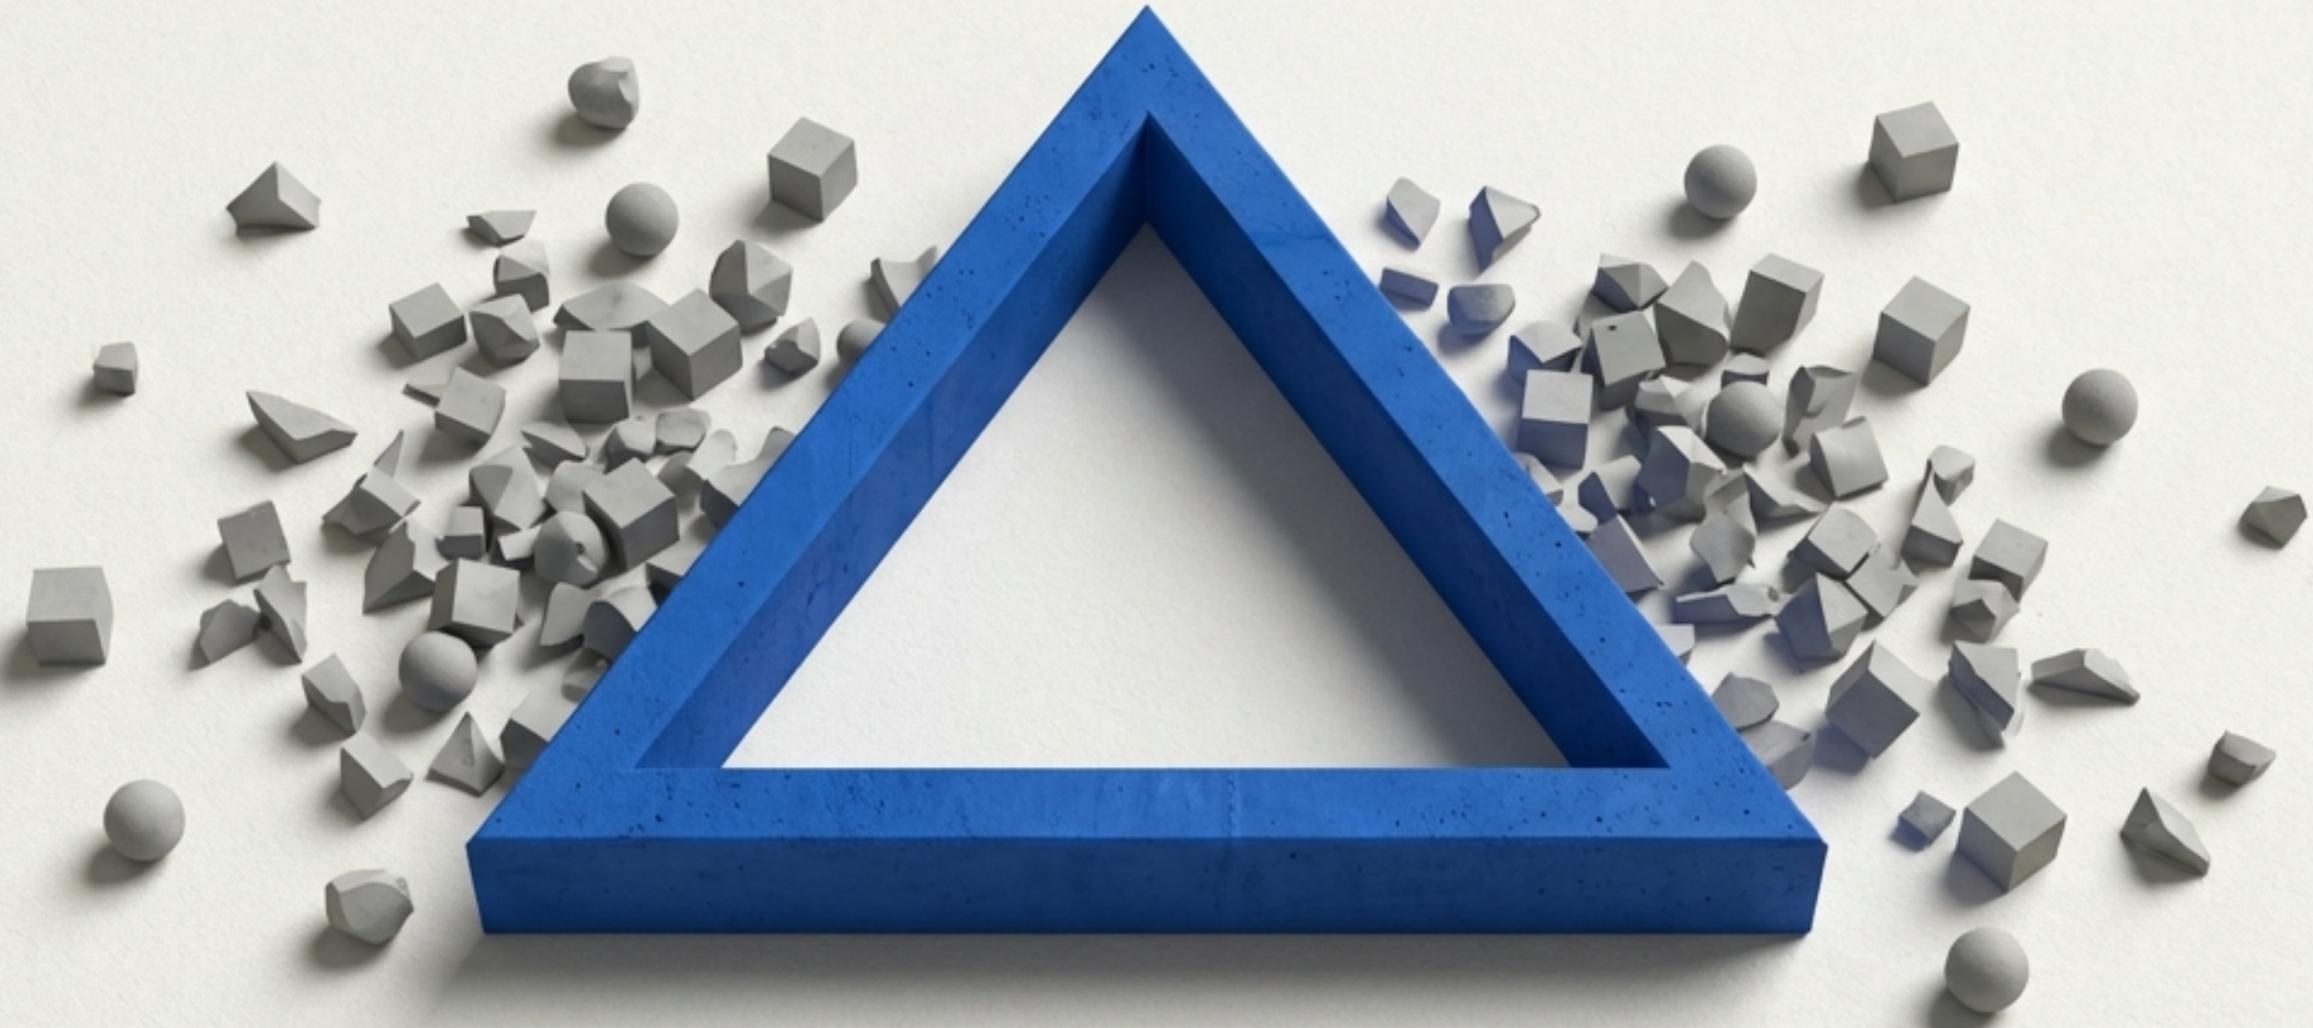

The 3-Part Starter System: Stop Feeling Overwhelmed and Start Building for Real.

Intelligence isn't the problem. Structure is.

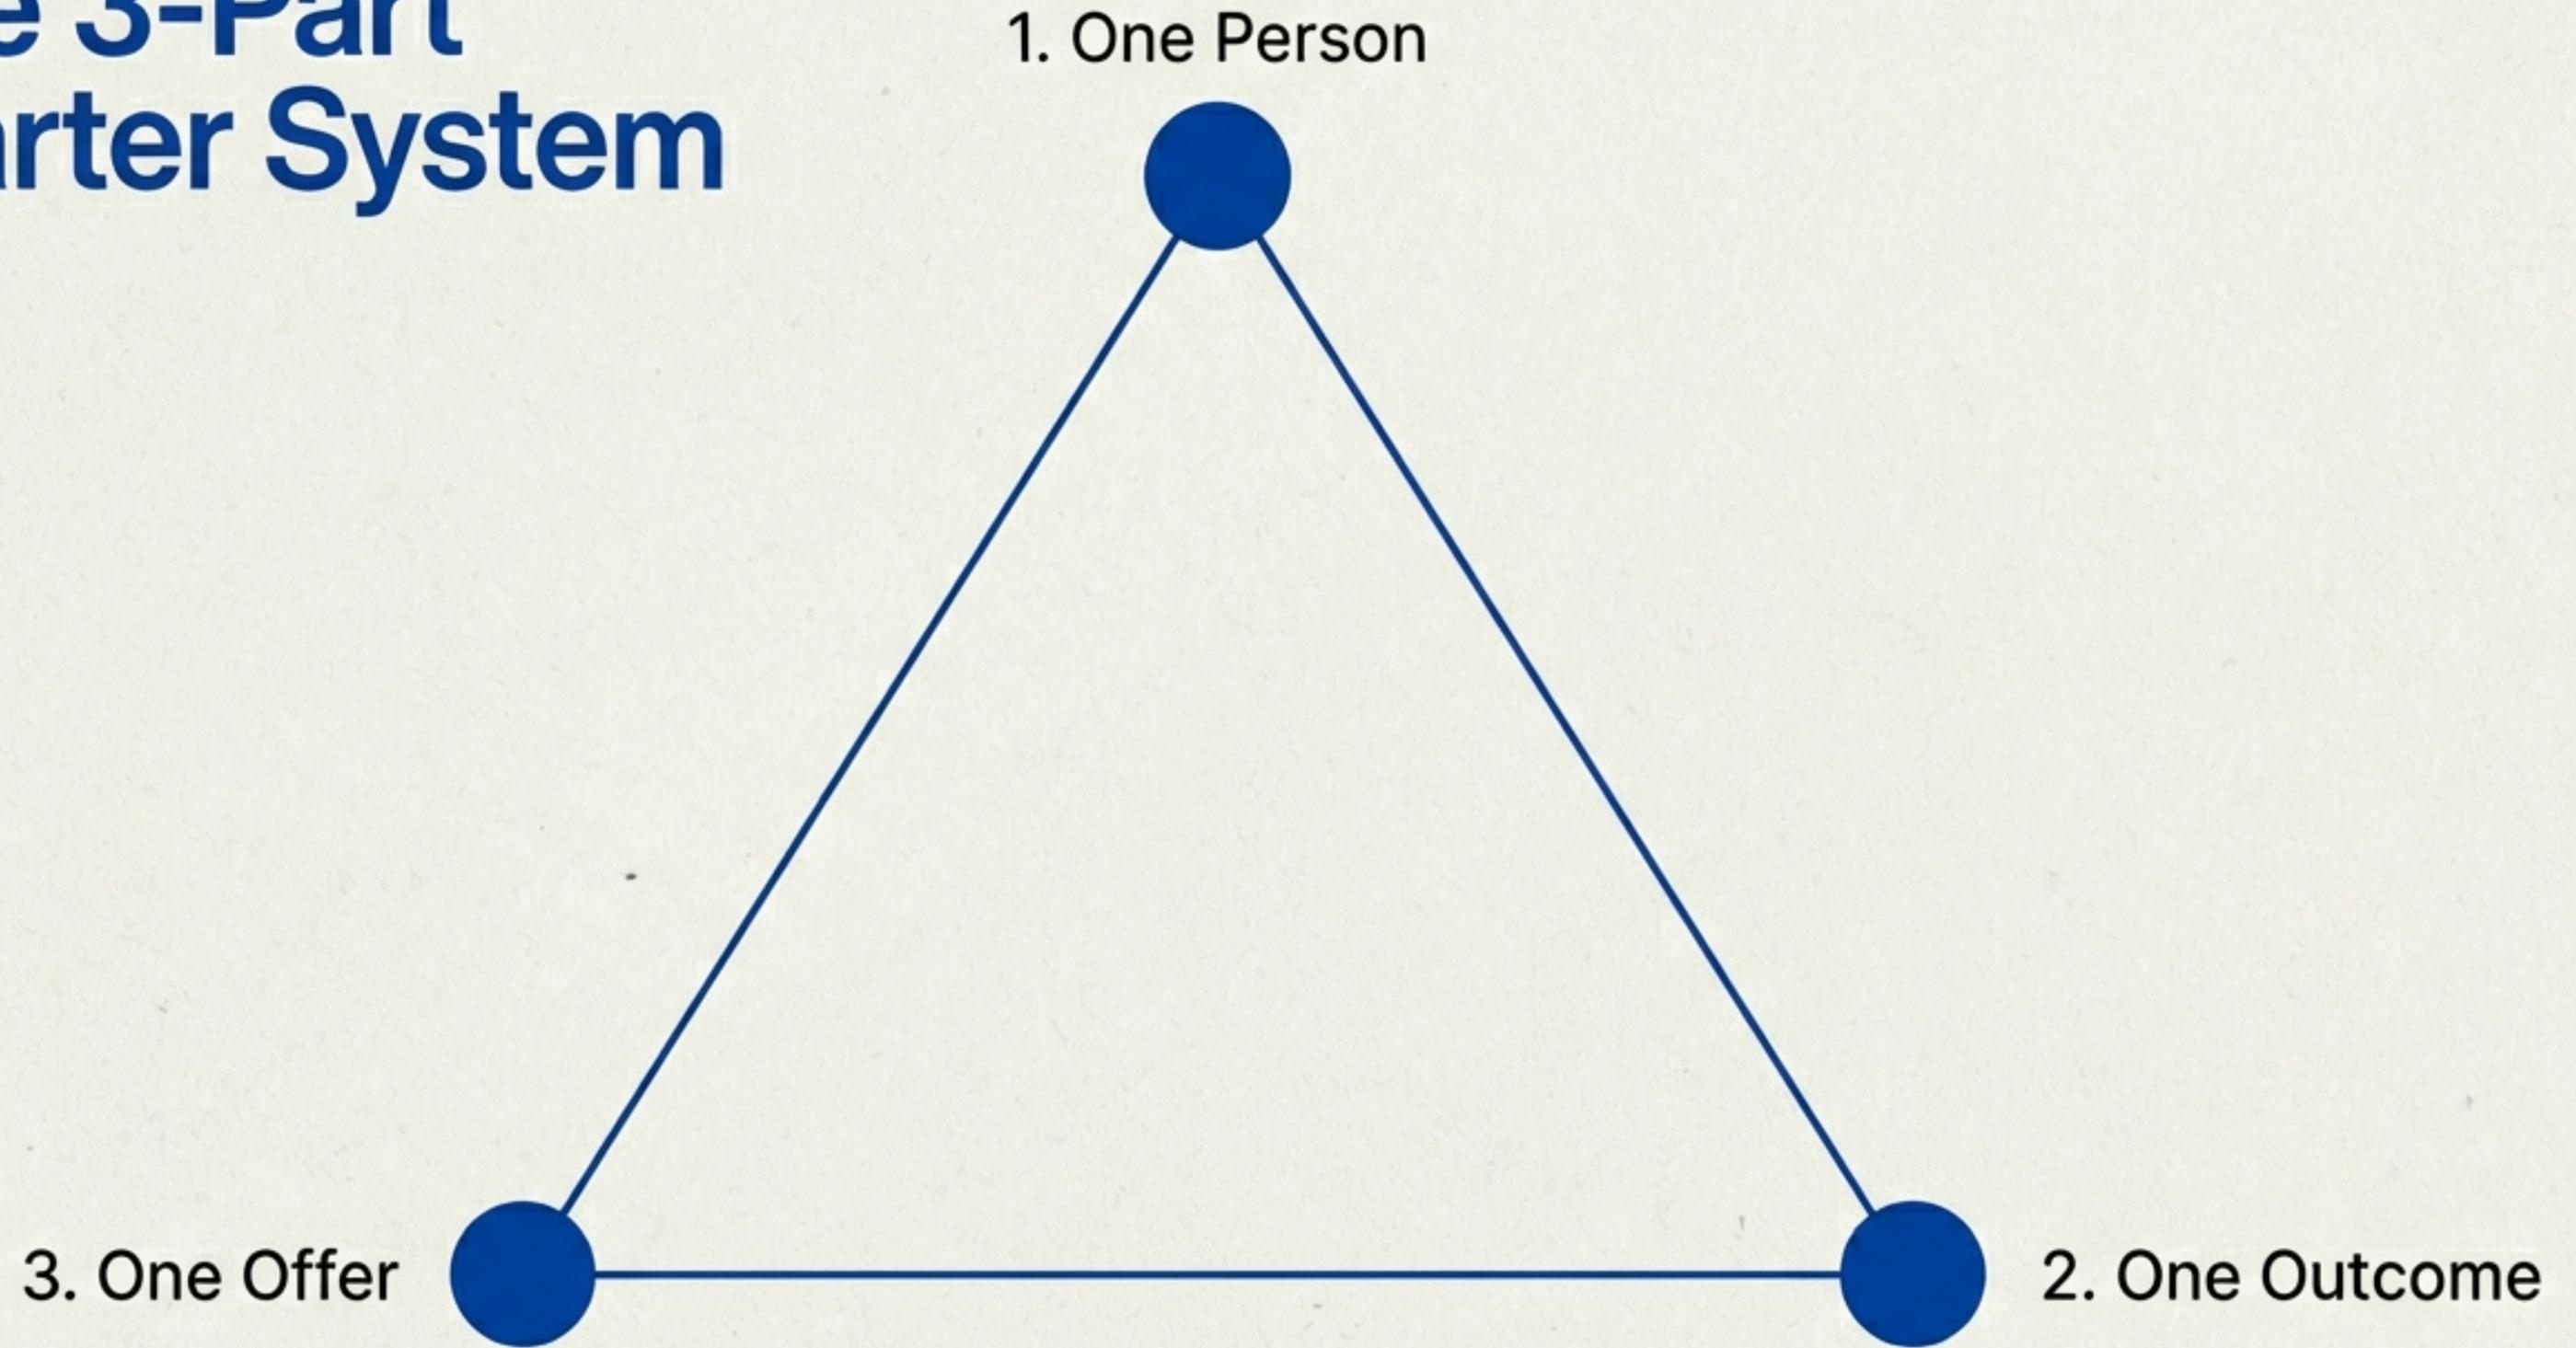

Most people aren't stuck because they're not smart. They're stuck because they're trying to build a business without a container.

You need a container to stop bouncing and start moving.

If you are starting over, busy, or tired of guessing,
you need a single focus.
